Lennox Kahati

Curriculum Vitae

Career Summary

Electrical and Electronics Engineering graduate with training in embedded systems, control engineering, and IoT development. Experienced in microcontroller programming, system modeling, and hardware–software integration through academic projects and practical work. Strong analytical and problem-solving skills with an interest in developing reliable and scalable engineering solutions.

Education

2019 – 2024 **B.Sc. Electrical and Electronics Engineering**, *University of Nairobi*, Nairobi, Kenya
Second Class Honours (Upper Division)

2015 – 2018 **KCSE**, *Lenana School*, Kenya
Grade: A-

2006 – 2014 **KCPE**, *Brainsgate Educational Center*, Kilifi, Kenya
84 Points - 404 marks

Key Skills

Programming	Python
Automation	PLC Programming (Ladder Logic)
Embedded	Embedded Systems Development
AI	Machine Learning Fundamentals
Research	Research and Technical Report Writing
Leadership	Chairperson, Robotics and Automation Society (IEEE UoN)

Professional Experience

Nov 2024 – Present **Research Assistant**, *University of Nairobi*, Nairobi, Kenya
- Research on climate-linked disease surveillance using inclusive IVR systems
- Designed IVR workflows for real-time public health data collection
- Integrated APIs for automated data ingestion into analytics dashboards
- Co-authored and presented paper: *"Bridging Climate Change and Public Health: An Inclusive IVR Framework for Disease Surveillance"* at the International Conference on Artificial Intelligence, Computer, Data Sciences and Applications (ACDSA 2026), Boracay Island, Philippines
- Currently involved in PCB design research

Aug 2023 – Nov 2024 **Embedded Systems Developer**, *iLab Africa*, Nairobi, Kenya
- Engineered MQTT and MySQL based server architecture
- Developed embedded IoT solutions for sensor data acquisition

Jun 2024 – Nov 2025 **Quality Assurance Engineer**, *Transsion Kenya*, Nairobi, Kenya
- Performed functional and regression testing on TECNO, Infinix and Itel smartphones
- Identified firmware, network and hardware defects
- Collaborated with engineering teams to improve device reliability

Projects

AI Healthcare Assistant Chatbot	A WhatsApp-based LLM powered chatbot providing healthcare guidance in local languages, with a Python Flask backend connected via APIs.
Climate-Linked Disease Surveillance IVR System	A mobile app for voice-based public health data collection in English and Yoruba (Yoruba in development), sending data to a cloud dashboard via API for processing.
Air Quality Monitoring System	Embedded system using environmental sensors and a centralized data analysis dashboard.

Strengths

Disciplined and able to work with minimal supervision.

Strong team player with good collaboration skills.

Quick learner able to adapt to new technologies and environments.

Personal Values

Integrity, professionalism, accountability, discipline and teamwork.

Hobbies

Playing football, reading inspirational books, travelling, design work and listening to music.

Referees

Mr. Kinyua Wachira	Lecturer, University of Nairobi. Email: kwachira@uonbi.ac.ke
Dr. Ibrahim Nyete	Lecturer, University of Nairobi. Email: anyete@uonbi.ac.ke
